## EXPERIENCE

### **Freelance, Minneapolis, MN – UX/UI Designer**

December 2020 - PRESENT

- Using tools such as Sketch, Figma, Adobe CC, and InVision to design websites and one-off UI designs

### **Skykit, Minneapolis, MN – Quality Assurance Engineer**

April 2019 - PRESENT

- Test weekly releases for Skykit digital signage software on an Agile Team
- Devise plans to comprehensively test new features
- Update test plans to ensure that they are efficient and relevant
- Work with the UX designer on usability tests and exercises

### **Epic Systems, Madison, WI – QA and User Experience Analyst**

June 2015 - April 2019

- Coordinated 4 to 5 usability tests per year
- Ensured usability principles were followed
- Validated software accessibility and compliance with WCAG 2.0
- Coordinated new development projects in an Agile environment
- Managed 5 team members' work queues

## PROJECTS

### **Trippin – Clickable Prototype**

<http://bit.ly/trippinprototype>

Web application designed to allow travelers to store all their trip-related content. Utilized surveys, task-based usability tests, and UsabilityHub for user research and testing.

### **BusyBus – HTML/CSS Prototype** <http://bit.ly/busybusprototype>

Mobile app designed to let bus riders know what the next arriving bus is and when it is arriving. Working in Figma, HTML, and CSS.
